

## CONTAINS NO HINT OF INTERVENTION

### Pan-American Appeal Is Being Delivered to Mexican Leaders

## CALLS FOR CONFERENCE

### Document Takes the Form of an Announcement to the Mexi- can People Themselves

## OFFER TO AID CONFERENCE

WASHINGTON, Aug. 14.—The Pan-American appeal to Mexico, now being delivered to the chiefs of Mexican factions and governors of Mexican states, was made public tonight by the state department.

### No Intimation of Intervention.

Without even an intimation of armed intervention, it calls upon the leaders to meet somewhere in Mexico on neutralized ground, in a conference "to adopt the first steps necessary to the constitutional reconstruction of the country" and to issue a call for immediate elections.

The services of the United States or any of the other Pan-American conferees are offered as intermediaries to arrange the meeting.

The appeal, prepared at the conference called by Secretary Lansing of the state department and diplomatic representatives from Argentina, Brazil, Chile, Bolivia, Uruguay and Guatemala, takes the form of an announcement to the Mexican people themselves. As made public tonight by the state department, the document is prefaced by the announcement:

"The Mexican people are informed that the following communication has been sent to many prominent persons in Mexico who possess authority or military power within the republic."

### Text Of Appeal.

Then follows the appeal, dated at Washington, August 14:

"Inspired by the most sincere spirit of American fraternity and convinced that they rightly interpret the earnest wish of the entire continent, we (the Pan-American conferees), have met informally at the suggestion of the secretary of state of the United States to consider the Mexican situation and to ascertain whether their friendly and disinterested help could be successfully employed to re-establish peace and constitutional order in our sister republic."

"We cannot doubt, that in the presence of a sympathetic appeal from their brothers of America, ask them to save their motherland from an abyss—no one can doubt—that the patriotism of the men who lead or aid in any way the bloody strife will not remain unmoved; no one can doubt that each and every one of them, will respond, nobly and resolutely, to this friendly appeal and give their best efforts to opening the way to some saving action."

"We, the undersigned, believe that if the men directing the armed movements in Mexico should agree to meet, either in person or by delegates, far from the sound of cannon and with no other inspiration save the thought of their afflicted land, there to exchange ideas and to determine the fate of the country, from such action would result undoubtedly the strong and unyielding agreement requisite to the creation of a provisional government which should adopt the first steps necessary to the constitutional reconstruction of the country—and to issue the first and most essential of them all, the immediate call to general elections."

### Offer to Aid Conference.

"An adequate place with in the Mexican frontiers, which for the purpose might be neutralized, should serve as the seat of the conference and in order to bring about a conference of this nature the undersigned, or any of them, will willingly, upon invitation, act as intermediaries to arrange the time, place and other details of such conference, if this action can in any way aid the Mexican people."

"The undersigned expect a reply to this communication within a reasonable time; and consider that such a time would be ten days after the communication is delivered, subject to the prerogative for cause."

(Signed)

"Robert Lansing, U. S. Secretary of State."

"D. Da Gama, Brazilian Ambassador."

"Edo Suarez-Mujica, Chilean Ambassador."

"R. S. Naon, Argentine Ambassador."

"T. Calderon, Bolivian Minister."

"Carlos Maria, de Pena, Minister from Uruguay."

"Joaquin Mendez, Guatemalan Minister."

Sund Appeal to Leaders.

The appeal went forward today to Generals Carranza and Villa and to more than a score of other military and political leaders throughout Mexico. No further meeting of the Pan-American conference is planned until replies have been received or it may be apparent that some of the

## INDUSTRIAL RELATIONS COMMISSION ADJOURNS

### COMPLETES TWO YEAR PROBE OF INDUSTRIAL UNREST

### Three Reports Are Made Ready for Submission to Congress With Sev- eral Supplemental Reports and Opinions.

Chicago, Aug. 14.—The United States commission on industrial relations which for two years has been investigating industrial unrest and its causes, concluded its sessions today and adjourned.

Three reports were made ready for submission to Congress with several supplemental reports and opinions, it was announced at the conclusion of the session.

One was signed by Professor John R. Commons, Wisconsin; Mrs. J. Borden Harriman, New York; Richard H. Ashton, Illinois; S. Thurston Ballard, Kentucky and Harris Weinstein, California.

Another announced as the "staff or main" report was finished in which all of the findings of fact and practically all of the recommendations, it was given out, were concurred in by commissioners Austin B. Garretson, Iowa; John B. Lennon, Illinois; James O'Connell, District of Columbia and Frank P. Walsh, Missouri.

The third report was submitted by Commissioner Weinstein and was concurred in by Commissioners Ashton and Ballard.

Commissioners Garretson and Walsh each submitted a statement setting forth their views on the causes of industrial unrest.

## MORGAN PLANS TO VISIT HIS OFFICE IN NEW YORK MONDAY

GLEN COVE, N. Y., Aug. 14.—J. P. Morgan is planning to return to his office in New York on Monday for the first time since he was shot at his home here by Frank Holt, who later killed himself in the Minicola jail. It became known tonight that extraordinary precautions will be taken to protect Mr. Morgan from possible harm. His yacht Corsair, which will take him back and forth from New York will touch each day at a landing which has not been disclosed and a motor car with curtains drawn will meet him there. This daily program, it is said, will be followed so that the banker's movements will not be known.

## POLICE ARE UNABLE TO OBTAIN A CONFESSION FROM EBERSOLE

SOUTH BEND, Ind., Aug. 14.—Police and county officials up to a late hour tonight had been unable to obtain a confession from Silas N. Ebersole, former Dunkard minister, who is under arrest here charged with the murder last August of 15 year old Hazel Macklin. Ebersole tonight continued to protest his innocence and asserted he would fight the case to a finish.

Newton Ebersole, arrested with his father, was released today. Arraignment of the former minister this afternoon was postponed until after the opening of the September term of court following the refusal of the police and sheriff's officials to turn over to the deputy county prosecutor evidence in the case.

## POLICEMAN IS SHOT IN BATTLE WITH HIGHWAYMEN

Johnstown, Pa., Aug. 14.—In a battle with five masked highwaymen at Garman, near here today Daniel Buchler, a member of the state constabulary was shot and seriously wounded. Three of the highwaymen were arrested. The battle followed an attempt to hold up the empty pay wagon of the Greenwich Coal and Coke company.

## DISMISS CASE AND RE-ARREST MINERS.

Duquoin, Ill., Aug. 14.—The case against ten miners charged with conspiring to blow up the Granger Cooperative Coal mine at Winkleville, Ill., was dismissed here today but the defendants were immediately rearrested.

They are being held pending the issuance of new warrants Monday.

## DELIVER NEW DESTROYER

Philadelphia, Aug. 14.—The torpedo boat destroyer Ericsson was delivered to acting Commandant Price of the Philadelphia Navy Yard today. The boat is of the latest type.

Mexicans addressed do not propose to reply.

The conferees confidently expect within a reasonable time enough favorable replies to warrant them in extending their aid to arrange for the proposed peace congress.

General Carranza's attitude toward the appeal still is a matter of speculation here. It is hoped that the friendly tone of the appeal may lead him to open negotiations with the conferees. It is generally believed he will reply by making counter proposals upon which he would agree to join in a peace conference.

Should Carranza make no reply whatever, it is expected the conferees will accept the invitation of other factions in Mexico to arrange details for a peace conference without his participation.

## BALKAN AFFAIRS APPROACH CRISIS

### Teutons Are Said to Have Massed Troops on the Balkan Frontiers

## MENACING TO RUMANIA

### Four New Divisions of Reserves of the Rumanian Army Are Called Out

## GERMANS CONTINUE ADVANCE

LONDON, Aug. 14.—Affairs in the Balkans are approaching a crisis. While diplomatic negotiations are proceeding in an effort to induce states still neutral to cast their lot with one side or the other, the Teutonic allies are reported to have massed troops on the Balkan frontiers. Their plan, it is supposed, is to force a way through to relieve Turkey who is believed to be badly in need of shells.

### Rumania Calls Out Reserves.

This concentration, which has been followed by an artillery attack on Serbian positions is equally a menace to Rumania which again has refused to permit shells to pass through her territory to Turkey. The Rumanian army already is partly mobilized and four new divisions of reserves have been called out. Bulgaria has as yet made no move, while awaiting the reply of the quadruple entente to her demand that Serbia and Greece concede Macedonia to her in return for her military support. This answer probably will be forthcoming after the meeting of the Greek and Serbian parliaments next week.

While the Serbians point out what they consider the unfairness of the Bulgarian demand, they show an inclination to make some concessions to obtain the support of their former ally. Greece is more firm in her refusal, but it is believed here there may be a change in her policy when former Premier Venizelos returns to power.

### Renew Expressions of Confidence.

With an apparent improvement of the Russian situation on the eastern front there are renewed expressions of confidence in the allied countries. The Russians claim they are continuing to drive the Germans back from Riga and west of Dvinsk and still are keeping them away from the fortress of Kovno. Although the Austro-Germans continue their victorious advance in the center and southwest the absence from official reports of any mention of the capture of guns or munitions indicates that the towns and positions which are being occupied by the invaders all are evacuated before their arrival.

Field Marshal von Mackensen has resumed his advance between the Vistula and the Bug after having been delayed for several days by Russian counter attacks, which finally overcame his cavalry.

The only important development on the western front is the German claim of another local success in the Argonne and this claim finds no confirmation in the French report which declares all attacks were repulsed.

## AMERICAN SOLDIERS AND MEXICANS ENGAGE IN RIOT

### Trouble at Nogales, Ariz., Is the Cul- mination of High Feeling Which Has Been Growing for Several Days.

Nogales, Ariz., Aug. 14.—Scores of American soldiers were participants in a riot on the streets of Nogales tonight as the result. It is said, of a rumor that Mexicans had threatened to take their guns away. Ten Mexicans were attacked before the officers got control of the men. One American is reported to have been slain in Nogales, Mexico, just across the border from here by infuriated Mexicans.

The soldiers who engaged in the rioting were members of the twelfth infantry and the sixth field artillery. They were joined by a number of civilians who shouted "Run all the Mexicans across the line."

Two hundred Mexicans fled across the boundary before the officers got control of the mob and started the soldiers toward their camps.

The riot was the culmination of high feeling between Americans and Mexicans which had been growing for several days. Soldiers, it is said, had been pushed off the sidewalks by Mexicans and subjected to other petty insults.

## LEVINSKY DEFEATS CARROLL

New York, Aug. 14.—(Batting) Levinsky of New York defeated Sator Carroll of San Francisco in a ten round bout in Brooklyn tonight. Levinsky weighed 174; Carroll 190 pounds.

## War News Summarized

The rush of the Teutonic advance eastward in Poland is rapidly hurrying the Russians to their second line of defense centering upon the fortress of Brest-Litovsk. Austro-German concentration of effort seems to be in the direction of this stronghold, from which their forces are at points now barely forty miles distant.

Opinion in all capitals seems divided as to whether Grand Duke Nicholas will be able to hold this new line.

Petrograd military observers express confidence that the Teutons will be checked at the selected positions, while London is wondering whether a further retirement of the Russians will not be necessitated.

The latest official reports seem to show the Russian lines rapidly yielding in the center and to the south, where Field Marshal von Mackensen's forces have penetrated to the Radzyn-Vladoca line, while in the north the Russians appear to be making a more determined stand.

In the west, the chief activity is in the Argonne, where the French report the repulse of new German attacks. Berlin claims some ground has been gained.

Reports from the Dardanelles carry the story of the operations little further, if any, than that told in recent British official statements. Turkish reports deny any further gains by the entente allies.

On the Austro-Italian front the fighting of late seems to have been confined chiefly to artillery actions, with little change of ground through infantry attacks.

A Paris news agency has received a dispatch from Rome declaring that in response to the recent peace appeal of Pope Benedict his willingness to enter the peace negotiations provided the first overtures came from the nations at war with Germany. Austria replied similarly, it was added.

## MOVE TO PROTECT NEGRO AFTER DEATH OF HIS VICTIM'S HUSBAND

MURPHYSBORO, Ill., Aug. 14.—Elaborate precautions were taken tonight to prevent mob violence against Joe Deberry, a negro in jail here, following receipt of news of the death today at West Baden, Ind. of James H. Martin, prominent southern Illinois lawyer, whose wife was murdered by Deberry two weeks ago. Deberry has confessed. Mr. Martin's death was due to heart failure, the result of shock and grief resulting from his wife's death. Deberry was employed as servant at the Martin home, Mr. Martin and his wife having procured release on parole from the penitentiary. The killing of Mrs. Martin was practically atrocious, the body having been so hacked with an axe as to be almost unrecognizable.

## LODGE SEES REASON FOR REJOICING IN RE-UNITING OF REPUBLICANS

WORCESTER, Mass., Aug. 14.—United States Senator Henry Cabot Lodge speaking today at the outing of the Worcester County Republican club, deplored the division of the party in 1912 and saw reason for rejoicing in the fact that it was "re-uniting once more in a common and commanding purpose."

"I prefer to say 're-uniting', he added. 'I do not like overmuch the words 'return' or 'come back' for I have no distinctions to draw and in our reunion, when completed, the Republican party will not only find victory but what is far more important, prosperity and repose will once more be granted to the business and our high standing abroad, so sadly impaired, will be regained."

## BANKERS TO AID IN SECURING UNIFORM PRICE FOR COTTON

### Means Proposed to Help Producers Is the Gradual Marketing of Their Products.

Galveston, Tex., Aug. 14.—Representative bankers from eighteen cotton growing states today pledged themselves to support producers in an effort to obtain a fair and uniform price for cotton, the market for which been to a certain extent demoralized as the result of conditions growing out of the war in Europe.

The bankers' meeting resulted in the formation of a permanent organization to be known as the Cotton States Bankers' conference.

The means proposed to aid the cotton producers is the gradual marketing of their products. The bankers have agreed to advance money to planters on cotton securities. This, it was the opinion of the conference, would enable dealers to hold their product and offer no more cotton than the market would conveniently absorb.

A telegram from W. P. G. Harding of the federal reserve board promised cooperation in the plan.

## PRINTERS END CONVENTION.

Los Angeles, Cal., Aug. 14.—Delegates to the sixty-first annual convention of the International Typographical Union completed their work today, adjourned and left on a special train for San Diego.

## MORE TROOPS ARE ORDERED TO BORDER

### War Department Acts at the Request of Gen- eral Funston

## SEND ONE AEROPLANE

### Officers Believe Flying Mach- ine Will Prove Very Effect- ive in Locating Bandits

## BROWNSVILLE IS QUIET

WASHINGTON, Aug. 14.—Late today the war department at the request of Major General Funston ordered one regiment of infantry from Texas City to Brownsville and also ordered one aeroplane and one battery of 4.5 guns and one of 4.7 howitzers to Brownsville from Fort Sill, Okla.

Major General Bell, commanding at Texas City, will select the infantry regiment; the commander at Fort Sill will choose the batteries. Although first reports today indicated no more forces would be sent to Brownsville, later developments evidently convinced General Funston of the need of more protection for the border line threatened by Mexican raiders.

Assistant Secretary Breckenridge said the new orders were issued in consequence of General Funston's desire that the garrison at Brownsville be strengthened.

"Time howitzers have been sent," said Mr. Breckenridge, "as they are the best weapons to use against marauders who may be hiding in the hills because of their high angle fire. General Funston feels that there should be a stronger force at Brownsville, where there has been so much difficulty. He did not report any new developments."

### To Use Aeroplane on Border.

Brownsville, Tex., Aug. 14.—The aeroplane is to be used in suppressing raids on the Mexican border, according to advice reaching Brownsville army officers tonight. Washington advices were to the effect that an aeroplane is to be included in the reinforcements which today were ordered sent from Texas City to Brownsville to assist the troops of Major General Frederick Funston in stamping out the Mexican raids which for more than a week have created a reign of terror in Mexican border counties.

One of the difficulties of the campaign against the Mexican raiders, according to army officials, is that which soldier and civilian possess experience in locating the bandits in the mesquite brush which covers the rural districts of this section. Observation from horseback or from raised portions of the land have proved unsatisfactory, it was said. Officers believed, however, that the flying machine may prove effective in locating the bandits and their direction of travel to the officers commanding the searching parties.

The situation in the vicinity of Brownsville today was quiet, only minor outrages being reported. The search for marauding bands continued however and some apprehension was caused by the opinion expressed in many quarters that the raiders may have taken refuge among Mexicans on the Texas side of the Rio Grande and may have abandoned their raiding for the present, only to take it up again later on should the vigilance of the authorities relax.

### Furnish New Angle on Cause.

A new angle on the cause of the border revolution was furnished today by J. H. Johnson, United States consul at Matamoros, across the river from here. He said many people believed that the outbreak was inspired by Huerta followers along the border in the hope that they might regain their prestige in Mexico should the southern republic become embroiled with the United States as the result of the raids.

General E. P. Naffarrate, commander of the Carranza forces at Matamoros, announced tonight he had instructed his forces to prevent armed bands of Mexicans from crossing the Rio Grande into the United States and ordered the arrest of any raiders who might be caught escaping from the United States.

Only one bandit was captured today. He was killed resisting arrest on a ranch near Raymondville, north of here, according to a report telephoned to Brownsville by J. M. Fox, a captain of the Texas Rangers.

## FAMINE FOLLOWS REVOLUTION.

Washington, Aug. 14.—Famine has followed in the wake of the Haitian revolution and the American Red Cross today received an appeal for aid for suffering Haitians.

A report from Rear Admiral Caperton, commanding the American forces in Haiti, declared there was considerable suffering for food among the poorer people. He asked for Red Cross aid. The Red Cross at once turned over \$1,000 to the navy department which was telegraphed to Admiral Caperton for relief work.

## WOOD SAYS U.S. HAS PLENTY OF MATERIAL

### CAN EQUIP VOLUNTARY ARMY OF A MILLION AND A QUARTER

### General Declares the Chief Need is Officers—Advocates Training Stu- dents in Their Junior and Senior Years.

Plattsburgh, N. Y., Aug. 14.—The United States has plenty of material for a volunteer army of one and a quarter million men and all that is now needed are plans for utilizing it, Major General Leonard Wood declared today in a statement as to the preparedness of the nation for war. The chief need, he said, was officers and he advocated training students in their junior and senior years along the same lines as now are being used at the military camp of instruction here.

General Wood said the country has three sources of supply from which to draw officers. First, men in the regular service, militiamen or men who have had military training and now are in private life; second, men who have qualified by examination; third, military schools or institutions in which some military training is given.

For an army of one and a quarter million men, General Wood said, the nation would need 40,000 officers. From these, 1,500 should be chosen each year for special grades of the service. These men, eventually, he would have become the higher grade of officers for volunteers.

### Referring to military service Gen- eral Wood said:

"No one has a right to consider his discharge of duty as a soldier as voluntary. This duty is an obligation that is binding upon all who are mentally and physically fit and within certain age limits."

"A man has no more right to speak of volunteering to discharge his duties to the nation as a soldier than he has to talk of volunteering to obey any moral law or pay his just debts."

## 'PRISONERS TO MAKE ARTICLES TO BE BOUGHT BY GOVERNMENT

WASHINGTON, Aug. 14.—Attorney General Gregory practically has decided, it was learned tonight, that the 3,000 prisoners in the three federal penitentiaries shall be put to work making articles which can be bought by government departments, including the army and navy. At present they are at work enlarging their living quarters which will not be completed for a year.

Mr. Gregory is considering the subject now because he will have to send estimates to congress this fall in case it is decided to install machinery for manufacturing purposes. He saw President Wilson today but said there still were some details to be worked out. Army tents and uniforms were mentioned as articles which might be manufactured by prisoners for direct sale to the war department.

## NO BODIES ARE FOUND IN THE HOLD OF THE STEAMER EASTLAND

CHICAGO, Aug. 14.—Work of raising and searching the hold of the steamer Eastland which capsized with a loss of hundreds of lives, continued today but up to a late hour no bodies had been found in the hold of the ship.

City detectives tonight reported they were unable to locate \$2,600 worth of jewelry which was taken from the body of one of the victims of the Eastland disaster and which disappeared from the office of De Witt C. Creger, city custodian, two days after the catastrophe. The jewelry consisted of five diamond rings and some other jewelry and was found on the body of Mrs. Mary Putz. Creger placed the articles in an envelope and when the woman's husband called for them they could not be found.

## STORM DAMAGES FRUIT.

Kingston, Jamaica, Aug. 14.—All along the central districts of the north coast of Jamaica fruit plantations were almost completely wrecked by the disastrous storm which swept Jamaica yesterday.

At Port Maria scarcely a tree was left standing.

Four lives were lost at Bluff Bay where wharves and fruit houses were wrecked and several public buildings unroofed.

Details are not available, owing to damage wrought by the storm to telegraph wires.

## McGRAW PROTESTS SALE.

Cincinnati, Aug. 14.—John McGraw, manager of the New York National league baseball club, upon hearing today that John "Rube" Benton had been sold by the Cincinnati club to the Pittsburgh club, filed a protest with President Tener of the National league, claiming that he had an option on Benton which does not expire until next Monday.

Hearing of McGraw's protest, President Herrmann, of the Cincinnati club, said that the option had been overlooked and ordered Benton to report to the New York club.

Biddeford, Maine, Aug. 14.—John W. Harper of New York, last survivor of the Harper Brothers magazine publishers, died today at Biddeford Pool. He was 84 years of age.

## SETTLE ST. LOUIS TEAMSTERS STRIKE?

### Head of Team Owners An- nounces Differences Have Been Ended

## DRIVERS DENY REPORT

### Officers of Teamsters Union Declare that the Strike Is Still In Progress

## POLICE RESORT TO REVOLVERS

St. Louis, Aug. 14.—At midnight tonight George J. Tansey, head of the team owners' organization here, announced that the strike of 1,500 transfer company, teamsters and chauffeurs which began yesterday, has been settled, but a few minutes later officers of the teamsters' union denied that they had agreed to the settlement and said that the strike still was in progress.

The teamsters were in conference with the team owners from nine o'clock until midnight. As Mr. Tansey emerged from the room he announced the strike had been settled. Later he issued a typewritten statement which said the strikers and owners had agreed to settlement, the chief conditions of which were that they resented scale of wages remain in force for one year and that the teamsters appear at work at 6:30 a. m. instead of 6 o'clock.

D. J. Murphy, vice president of the teamsters' union said:

"We neither agreed to or repudiated the owners' proposal. We will submit their proposition to the union at large tomorrow without recommendations. The strike is still in effect."

Police Resort to Revolvers.

The police tonight resorted to the use of revolvers to prevent a mob of striking teamsters from rescuing two men who had been arrested for inciting riot, a performance which the strikers twice carried out successfully last night.

When nearly a thousand strikers and sympathizers attempted to attack a dozen non-union drivers of mail wagons who had quit work for the day, the police succeeded in protecting the non-union drivers, but a newspaperman, who had accompanied city detectives to the scene was mistaken for a strike breaker or transfer company guard and was badly beaten. He was rescued from the mob only after the detectives had drawn their revolvers and threatened to fire into the crowd. Later when the detectives arrested two strike leaders the strikers again charged on the police but were again driven off by the show of revolvers and by blows from night sticks.

## AUTO BANDITS ROB CASHIER

Chicago, Aug. 14.—Four automobile bandits held up the cashier of the Leonard Seed company today and robbed him of \$800 and escaped. According to the police the license plate on the machine in which the robbers rode bore number R-4243, which the records show was issued to Bert Richard of Savanna, Ill.

## CHARLES S. SMILEY DIES.

Clarksburg, W. Va., Aug. 14.—Charles S. Smiley, prominent oil magnate, banker and sportsman, died at his home here last night. He had been sick for two years. Mr. Smiley won the southern regatta yacht race at Fort Pierce, Texas, in 1912 and was a participant in some of the largest yachting races in this country.

## CATHOLIC SOCIETIES OPEN CONVENTION

Toledo, O., Aug. 14.—The national convention of the Federation of Catholic Societies will open here tomorrow, with big delegations present from the dioceses of the United States. A big mass-meeting will be held tomorrow, and the delegates will hold daily sessions until Wednesday night.

### "Prominent" Men Help.

And again the ever present question of road betterment is to be given an impetus next Tuesday, which has been designated as "Logan-Leach Highway Day." On that day over 100 miles of road from Salem, Ill., to Paducah, Ky., will be worked. It is stated that more than 500 business and professional men, including state officials and congressmen, will take part in the work. It usually happens on such days that the "prominent" men appear and make speeches but that the real work is done by the farmers or others who are accustomed to the labor of road improvement. Nevertheless the interest that the business and professional men may be said to have will have its good effect and they should not be shorn of any honors arising from their activities.

### Elections Cost Money.

That the election laws of Illinois need some amending so that expenses may be reduced is indicated by the announcement that an estimate shows that Cook county elections for 1916 will cost something more than \$2,300,000. In at least eight separate months of the year elections must be held and the polling places for polling days and elections must be opened at least seven times. In the last legislature it was proposed to shift the time for holding elections in order to make a lesser number but little was done in this regard. However, an advance step was taken in the appointment of a commission to investigate the subject and make a report at the next session.

### The Tractor is Coming.

The tractor demonstration held at Champaign recently attracted a vast amount of attention and gave evidence of the new era which may be said to be here in the matter of motive power for farm work. Another demonstration is to be held soon at Bloomington, and these demonstrations are the order in several central and western states. For the tractor show at Fremont, Neb., held recently one company started a tractor overland from Cleveland, O., and although the roads were bad for much of the distance, the machine finally covered the distance of 1,000 miles. The tractor used was not a road machine but the long journey was of course planned by the manufacturers as an advertisement and as a practical demonstration of what can be done with such motive power.

### A Suggestion to Farmers.

While the government estimate indicates a vast corn crop and there is every reason to believe that the promise will be fulfilled, the Chicago Live Stock Journal suggests something for the farmers to think about in this connection. The suggestion, by the way, is valuable and not particularly disconcerting. It is to the effect that the very late season makes it likely that the 1915 crop will not be good for seed. It is pointed out that the wet, cold weather has jeopardized the germinating qualities of the corn and that farmers will do well now to look over the remainder of their 1914 corn and select the best ears for the possible contingency of having to use them for the 1916 seeding. The suggestion is certainly worthy of the consideration of careful farmers.

### Shows Slow Growth.

As previously noted, it is possible now by arrangement with the census department to have population figures taken in years outside of the regular census period. In Iowa statistics just made public show that the state has gained only five per cent in the last five years. Further it develops that all the increases have been in the larger cities and that the farming population has not increased at all. This is accounted as somewhat hard to explain since Iowa has been considered an agricultural Mecca for farmers from many states further east. Mason City, Ia., has taken the medal for increase and because of certain factory interests there has shown a gain of fifty-three per cent in five years.

### To Teach Swimming.

One of the results of the Eastland disaster has been the recommendation by a committee of the board of education in Chicago that swimming lessons be made a part of the regular school curriculum. The resolutions presenting this matter suggest that a swimming pool or tank be provided for each school building where instructions in swimming may be given at any time in the year. It is estimated that the program outlined will cost the city \$1,000,000. Mrs. Ella Flagg Young, superintendent of schools, is said to favor the movement and the recommendations will likely be carried out. The committee believes that the swimming lessons will not only be of advantage because of preparing the school children for emergency cases, but that it will have an excellent effect upon the general health of the school children.

### No Room For the Unprepared.

The increasing interest in the employment of county advisors or crop experts has resulted in various inquiries being sent to the farm papers and to agricultural schools of the quickest way to prepare for such work. Farm advisors are now drawing salaries of from \$1500 to \$4,000 a year, and in a number of instances advisors have been employed immediately after having finished their agricultural course at a university. In such instances, however, almost all have had previous practical farming experience.

The field of opportunity in this line of work is large, but no young man should enter the work believing that by taking a few years' training at an agricultural school that he will then be fitted to draw down a salary of \$3,000 or \$4,000 a year. The men who are securing such salaries are experienced and bring to the work the results of mature knowledge. No greater harm could come to the farm advisor movement, which in itself is of vast importance to agriculture, than to have a number of ill-prepared young men enter the work. Their failure would be likely to retard and damage this very beneficial movement.

### Supply and Demand.

The sharp decline in the wheat market Friday because of cancellation of orders from abroad caused a vast amount of speculation as to the cause behind the order. James A. Patton, formerly a large grain operator, is quoted as saying that either the allies had found a new source of supply or else they had become convinced that they would not have the money to pay for shipments. Opinions expressed by board of trade men were varying, but the generally accepted view seemed to be that there was a likelihood of the opening of the Dardanelles, making possible the shipment of the Russian crop. Whatever the cause, the wheat price tumbled a little more than four cents a bushel which caused some hurrying and scurrying among commission men to cover.

Even if the Russian wheat supply should become available, it seems reasonable that with production so much lessened in European countries that there would still be a great quantity from this country. In figuring on the loss of production it is necessary also to take into account the lowering of consumption of food which must result from the slaughter of ten million men. The fact of so many less mouths to feed will have a large place in this reckoning between supply and demand.

### Still Loyal to Land of Birth.

While the foreign born citizens of this country except in notable instances have not shown a great deal of feeling or prejudice with reference to the great war, that there is an undercurrent of such feeling everywhere was indicated in the case of a farmer who formerly lived near Aurora. When a son arrived in his home recently, the newborn was given the name of Asquith Kitchener Weston, and when a neighbor of the Westons heard the announcement they promptly christened a new arrival in their own home Kaiser Wilhelm Morkus. It is not necessary to go further as to the nativity of the parents in either case.

### A Judge's Wisdom.

It was King Solomon who long ago gained the name of great wisdom by settling a question as to the motherhood of a child. According to the Bible story, when two mothers came before him each claiming the child, the wise old king made it appear that the child was about to be put to death and was able to choose the real mother because of the heart anguish she showed. A St. Louis judge who recently passed on a question of the possession of a child did not have the same question to consider that confronted the ancient king, but he did decide the question in a very diplomatic way. The child's mother died a few weeks ago and then came a struggle for possession by the paternal grandmother and the maternal grandmother. The St. Louis judge believed that both grandmothers were fitted to take care of the child so he decreed that the child would spend two months alternately with each grandmother until the further order of the court. The scheme sounds well at any rate, and the only reservation the judge made was that this order should prevail for the present and that meanwhile he would take judicial observation of the result.

### Business Born of Disaster.

For continued and vigorous business hustling the "Ohio Greater Dayton Association" can be considered an example for even cities of a larger growth. The activities of the association are such that the work is outlined by thirty-six committees and the secretary who is in charge is paid a salary of \$10,000 a year. He has a large force of active assistants and the program outlined will cause the expenditure of several million dollars. A part of this large expenditure will be for protection against flood. The general movement there may be credited to the great loss sustained two or three years ago from flood, and that disaster, like so many others, is proving a blessing in disguise so far as business is concerned.

### This Plan Would Do.

Possibly Supt. Miser in announcing that if South Main, East State and West State streets are paved that the railway company will tear up their tracks and go out of business had in mind the adoption of the Muskogee plan. In that Oklahoma city of 30,000 the railroad company was so dissatisfied with the jitney regulation that they sometimes since announced that they would abandon service on their twenty-five miles of track, only operating a car or two in order to keep their franchise. Instead

of the car service they have installed motor cars which operate on the principal streets in a very satisfactory way, and the company claims to be making more money than under the old system. Here it would not be necessary even to operate a car or two, since the company is without a franchise.

### Kansas Employees Must Keep Dry.

Kansas has always been in the lead in the strictness of dry measures. Recently Governor Capper in a letter to the civil service commission laid down the rule that no employees of the state would be permitted to take a drink of intoxicating liquor. Knowledge that any employee has violated this rule will be sufficient grounds for dismissal. As there are 3,000 employees on the payrolls, some idea of the significance of this order can be gained.

### STREET RAILWAY AND PAVING.

The recent announcement by the street railway company officials that there is not a dollar at hand for expenditures on the improvement of the local property does not seem to have had the effect of stopping the preparations being made by the board of local improvement for the paving of South Main street, West State and East State street. There is every indication that these improvements will be pushed forward by the regular lawful procedure and will be accomplished. Part of this paving will certainly be done this year and possibly all, although the formalities necessary to meet the law may make it impossible to do all the work before cold weather.

The question has therefore naturally arisen as to what will be the effect if the railway company continues to maintain its stand that it has no money to pay for its share of the improvement and cannot borrow funds for the purpose. According to general belief the railroad property will have the same relation to the proposed improvement that any other property has. This means that the improvement will proceed and when the time for payment of the first installment comes if the company defaults, then the property would be attached and sold for taxes just as is true in other cases.

It does not seem likely that this will happen because, as already stated, the company has too large an investment in rails, ties, trolley, poles, etc., to simply go out of business because of the improvement ordered. The estimated expense of the street railway for paving between its rails and 18 inches on each side thereof and for a concrete foundation under the ties is about \$26,000. This estimate includes the proposed improvement on the three streets mentioned above.

It has been stated that the company feels that the paving work would necessitate new rails, ties, etc. which would cost an additional \$50,000. Citizens do not understand why it would be absolutely necessary to do all of this proposed reconstruction work even if the paving is done. They think that the contractor to whom the paving work is let could go ahead paving between and around the rails and place the foundation underneath just as is specified, without the necessity of the new construction work. The specifications provide brick adjoining the car company's property for the very purpose of making it possible for the company to do construction work without injury to the principal part of the pavement.

So it looks reasonable that the company if unable at this time to provide \$75,000 for paving and construction work might supply \$26,000 for paving work and take care of the construction cost at a later time. There is the added fact, too, that the railway company does not need to pay the entire cost of this improvement in advance or at one time any more than a share of any other property holder. The improvement cost can be paid in ten installments and thus the first charge against the company would be something less than \$3,000. These figures give additional reason for the belief that the railway company will not be inclined to go out of business rather than to meet this first payment and the other ones which will follow. If such a plan is in their minds it must be because of an intended change in the method of transportation.

### TEST HOLES TO BE SUNK AT NORTH SIDE STATION

Log of Borings to be Made as a Guide in Future Work.

Mayor Rodgers and the city commissioners have made arrangements for a thorough testing of the water bearing strata at the north side pumping station. A firm which makes a specialty of such work will soon have a man on the ground boring test holes at a variety of locations in the vicinity of the other wells. These holes will be but four inches in diameter and the cost of sinking the whole number will not be large. By means of these holes is the plan to have a log made of the land so that any wells which are put down for increasing the water supply will be located at the most advantageous points.

There are no records of drilling which can be used as a guide to proposed work and accordingly the plan was decided on of having this series of test holes sunk. In such a field, experience has shown that without an accurate knowledge of the underlying strata and the varying thicknesses of the gravel bed that one well may be so located as to seriously interfere with another nearby. If the series of test holes give evidence of a sufficient supply of water then it is the intention to put down the number of wells necessary to secure all the city's supply from that source.

A larger pump would be necessary but with such added supply and equipment it would be possible to close down the south side pumping station and thus effect a saving of at least \$2000 a year. The proposed water log will be a valuable addition to the city's records just as will the plans of the lighting and water pipe systems which are being made.

### SEARCHERS HAVE NO CLUE.

It is said that they uttered pro-German sentiments while the Minnesota was loading recently in British and Japanese ports.

### MOTORBOATS IN GOLD CUP RACES.

New York, Aug. 14.—The motorboat races for the gold challenge cup of the American Power Boat association will begin in Manhasset Bay this afternoon. There will be three races in all, the contestants meeting again on Monday and Tuesday. Baby Speed Demon II, owned by Mrs. J. Stuart Blackton, which won the cup last year on Lake George, is again entered, and she has some fast competitors.

### DEDICATE GREAT CATHEDRAL IN MINNEAPOLIS.

Minneapolis, Minn., Aug. 14.—Many high dignitaries of the Catholic church have come to Minneapolis today for the dedication of the Pro Cathedral of St. Mary, which will take place tomorrow under the leadership of Archbishop Ireland. Eight years from the time ground was broken, the \$300,000 edifice is to be formally dedicated. The white granite walls and towers of the church are complete, its cross, 200 feet above the floor, has glistened in the sun two summers, and the interior is so far finished that services have been held in the church for over a year.

### MAVERICKS

The linotype man is a funny cuss he's a carefree guy who makes no fuss. Yet he can mix the language up and the editor's patience quite disrupt. You write of the fair and winsome bride and he will forthwith make it bridge. And when in the copy you speak of the groom when you see the proof it's changed to broom. The deep solemnity that surrounds the bier, he calmly changes to lager beer. When we write a story of the Prince of Wales it's dead easy to make it the Prince of Whales. But if it wasn't for him you would have little news and he says our spelling just gives him the blues. That our English and rhetoric is very passe and never would carry us far on the way. But with all of his failings he's an average man just built on the Maker's general plan. We hope when he dies and to the better land goes he will find that his copy is made up of prose.

A headline says Carranza is showing his teeth to the United States. He should be careful for Uncle Sam has an enviable record as an extractor of troublesome molars.

Those who talk of marriage being a failure should take notice of the record of a Mt. Sterling man who wedded his seventh wife in Quincy recently.

Will somebody tell us something about the wheat crop. Every day or two it falls off or increases about a million or two bushels. It is getting almost as elusive as the battle line between the allies at the Germans in France.

An exchange says that newspapers are a preventative of moths. We have often wondered what some newspapers were good for.

It's no fun to go on a vacation any more. Wherever one turns he sees warning about being careful of the water you drink and other sinister and sundry warnings. With these always before one what is the chance for real pleasure.

From the looks of things Editor Bell of White Hall and Congressman Rainey will not be political bedfellows in the future. Recently Editor Bell in commenting on some matter that had come up advised that it be placed in the hands of Congressman Rainey adding that he probably would be as successful in handling it as he was in the Keokuk Dam case and other things which the congressman threatened to do.

Statistics show that \$73,000,000 was spent for cigars in the United States last year. It seems like that would kill more people than all the munitions being shipped to Europe.

Editor McNabb is still peeved. After reading his editorial comments we are of the opinion that President Wilson is the only man in the world he has no grouse against.

William J. Bryan should draw the largest crowd to Jacksonville that has been in the city for many days. It is probable that many of them will be disappointed because they will expect Mr. Bryan to tell why he resigned as secretary of state. That is something he is keeping entirely to himself.

Thousands of newspaper editors throughout the country had something to say of the unexpected death of George Fitch. Some beautiful tributes were paid to the dead author and some were such as should never appear in any newspaper. One of this kind was written by an editor in Quincy. He seemed to be trying to be funny but his humor is of the kind that should be taken as a sort of absent treatment.

Kee Maxwell's gone to old New York. And Chi Gambles on the green. He is no novice in the work, As plainly can be seen.

The applause you hear in the distance over the news that the Traction company will take up its tracks on West State and South Main streets is not coming from the populace who ride the cars. It is from owners of automobiles who are already thinking of the records they will break on these streets when the car tracks are out of the way.

The Russians are said to be retiring in an orderly manner. If they ever get to retreating they should break some speed records.

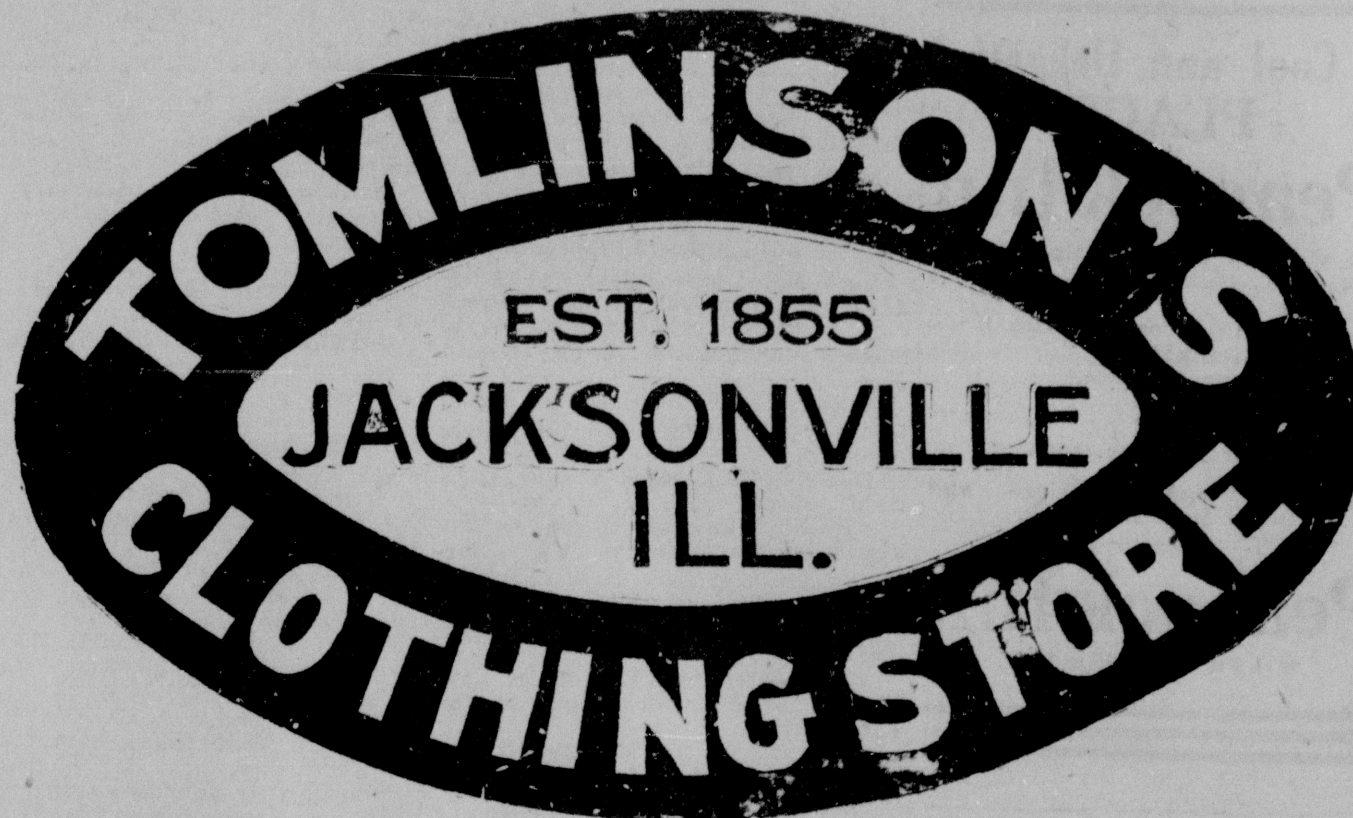

Sir John French in command of the British troops in France has sent word to his government that his troops have slightly withdrawn at Hooze. If things keep up somebody in that vicinity may move a few feet before long.

Judging from the remarks of a number of citizens the past few days a great many people wish the Traction company would tear up its gas mains instead of its street car tracks. If this was done, however, the company would have no hot air to disburse to the unsuspecting public.

It is to be hoped that there are some Mexicans alive today who remember the incidents of 1848. If they would only tell their misguided countrymen it might save a lot of trouble and inconvenience for Uncle Sam.

## MRS. LYON'S ACHES AND PAINS

Have All Gone Since Taking  
Lydia E. Pinkham's Veg-  
etable Compound.

Terre Hill, Pa. — "Kindly permit me  
to give you my testimonial in favor of  
Lydia E. Pinkham's Vegetable Compound.  
When I first began using it I  
was suffering from female troubles for  
some time and had almost all kinds of  
aches — pains in lower part of back and  
in sides, and pressing down pains. I  
could not sleep and had no appetite. Since I have taken  
Lydia E. Pinkham's Vegetable Compound  
the aches and pains are all gone and  
I feel like a new woman. I cannot  
praise your medicine too highly." — Mrs.  
AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's  
work has produced the grandest remedy  
for woman's ills that the world has  
ever known. From the roots and  
herbs of the field, Lydia E. Pinkham,  
forty years ago, gave to womankind  
a remedy for their peculiar ills which  
has proved more efficacious than any  
other combination of drugs ever com-  
pounded, and today Lydia E. Pinkham's  
Vegetable Compound is recognized  
from coast to coast as the standard  
remedy for woman's ills.

In the Pinkham Laboratory at Lynn,  
Mass., are files containing hundreds of  
thousands of letters from women seeking  
health — many of them openly state  
over their signatures that they have  
regained their health by taking Lydia  
E. Pinkham's Vegetable Compound; and  
in some cases that it has saved them  
from surgical operations.

## JOHN HENRY CAME TO COUNTY FROM CHESTER

PRISONER PERMITTED BRIEF  
VISIT BECAUSE OF FATHER'S  
DEATH.

Conduct at Chester Has Been Such  
as Entitles Him to Privileges —  
Tells of Life Behind the Peniten-  
tiary Walls.

John W. Henry had the privilege  
yesterday of coming up from Ches-  
ter penitentiary in charge of Parole  
Officer Green and spending a good  
part of the day at his old home  
with his family and friends, return-  
ing at four p. m.

Henry related to a Journal re-  
porter a good many interesting facts  
regarding affairs in Chester since  
his arrival there.

He was as it were on test for  
four months at the end of which  
time he assuredly made good and  
since then has been well treated and  
has a good task and life is made as  
tolerable as could be expected un-  
der the circumstances. He is look-  
ing quite well and in general good  
condition and says his great anxiety  
and cause for worry and sadness is  
his family. He extols most ardently  
his faithful and devoted wife,  
who stood by him so bravely and  
steadfastly throughout all his trou-  
bles and now is as always his true  
friend and never failing correspon-  
dent, bravely keeping the family to-  
gether and doing all in her power  
for the dear ones at home.

Came to See Father.  
When he received the news of his  
father's death naturally came a de-  
sire to look once more on the fea-  
tures of the one whom he had called  
father all his life, and he went  
to the warden and preferred his re-  
quest. He told that official he  
would go home unattended and re-  
turn at the time allowed him and the  
warden would not have been af-  
raid to trust him but the rules  
of the place forbade it and so parole  
officer Green was detailed to accom-  
pany him. The time of his visit was  
also discussed and wisely it was de-  
cided that it would be best to make  
a visit at home rather than attend  
the funeral and the arguments for  
this course will readily appear to  
any one who will study over the mat-  
ter.

It was decided that Henry might  
leave on the early morning train,  
which would land him in Woodson  
late in the morning and leave on the  
four p. m. train which would give  
him a good visit and land him in  
Chester late last night.

Everything worked according to  
program and as a matter of course  
the meeting between him and his  
family was affecting but all bore the  
ordeal bravely and the hours allotted  
them were spent in the best way  
possible for all concerned.

During the day he met a num-  
ber of friends and neighbors and all  
had an encouraging word for him.  
He bore up as well as could be ex-  
pected and when the time came to  
go he left his home and departed  
for Chester exactly as he agreed and  
it was also a compliment to him that  
he was not restrained in any way  
during the trip and the officer in  
charge was very kind to him.

He has ingratiated himself

into the good graces of the pris-  
on officers and they treat him  
kindly in return. He is head waiter  
in a dining room in which are 26  
tables each accommodating six men.  
He has four assistants and has not  
yet been once reported or reprimand-  
ed or reminded of a short com-  
ing by his superior officer. He has  
to arise an hour earlier than the  
others so that he and his assistants  
may eat their breakfast and get  
ready for the meal, their duty being  
to place the dishes, knives and  
forks and spoons together with the  
food and serve the men as request-  
ed.

The Daily Rations.

A regular ration is allotted each  
person and if he wants more he  
raises his hand to indicate the want  
and the waiter approaches him and  
ascertains what is wanted. Plenty  
of bread and molasses will always  
be found on the table and the meals  
vary daily. Oat meal and something  
lighter are served for breakfast,  
while more solid food is supplied for  
dinner. There is a garden connect-  
ed with the institution and a good  
many toothsome vegetables are raised  
there which are quite acceptable.  
Breakfast is served at seven and at  
eleven the men are called in to pre-  
pare for dinner which is served at  
11:00, and at twelve they go to  
work, quitting at five. Anything  
not wanted at supper may be taken  
to the cell and enjoyed at leisure.  
Last year they had a good many  
melons which were greatly enjoyed.

They have vegetables, meat a part

of the time and in general the bill of  
fare is reasonably good. Holidays  
they get treats from the institution,  
small boxes of candy and some other  
goodies and friends are permitted to  
send them eatables on those days  
and those days only. At such times  
the men who have made a good  
record are permitted to gather en-  
masse in some part of the institu-  
tion and enjoy the day socially.

They also have some amusements,  
moving pictures, lectures from any  
who volunteer to do such a service  
and various things are employed  
which serve to vary the monotony  
of the life for all who show them-  
selves worthy of kind treatment and  
the exceptions are few.

There is also a very good band  
composed of convicts and much en-  
joyed by the others. There is a base-  
ball organization for certain ones  
and some whose employment is  
quite sedentary are permitted to

see the game a while for the sake  
of fresh air and exercise.

After supper all are required to  
repair to their cells but there is  
plenty of light and reading may be  
enjoyed till nine when the retiring  
bells ring and all must obey. There  
is a very good library and each per-  
son may have a book for a week  
and as there are two to a cell two  
books may be enjoyed. Generally  
the cellmates are congenial and Mr.  
Henry speaks especially kindly of  
the one with him. He is a good  
reader and as Mr. Henry's eyes are  
rather weak his mate reads aloud  
and in turn Henry gives him the  
plug of tobacco supplied each man  
once a week. Holidays each one  
receives two cigars and ten matches  
and may enjoy them for a week but  
at no other time is smoking permit-  
ted though all who desire may  
chew but Henry does neither.

Writing Letters Home.

Visitors passing through the in-  
stitution may speak to any one there  
and then if a longer visit is desired  
it is granted in the warden's of-  
fice to the extent of two and a half  
hours in the presence of an official.  
Each man receives a sheet of paper  
and envelope Sunday mornings and  
may write once a week to any per-  
son he chooses, the letter to be read  
by an official and he may receive as  
many letters as his friends see fit to  
send him. Henry's address is J. W.  
Henry, 2559, Menard, Ill., that be-  
ing the name of the postoffice to  
which institution letters should be  
sent. He says Downs who was sent  
down not long ago has charge of  
the lawn which is not a bad job.

Henry and his mate have prayers  
at night in their apartment. Sun-  
days they have chapel services and  
while attendance is not compulsory  
the place is well filled. They have  
a Roman Catholic priest, a German  
Lutheran and another chaplain also,  
Rev. McGuffey, who is quite popular  
with the men.

A good hospital is provided for  
the sick and sometimes a man will  
play off to get rid of work, but it  
hardly pays as punishments are  
rather sure and severe. As a whole  
Henry says he has found life there  
far more bearable than he antici-  
pated, the great trial to endure is  
the dear ones at home who need him  
so much and with whom he wants  
to be that he may work for them  
and make their lot as good as possi-  
ble.

"WHERE TO CROSS THE RIVER"  
To persons traveling in automo-  
biles it may be of interest to state  
that the Illinois river crossings are  
in very poor shape at this time, and  
the consequence of the various ferry-  
men are stretched so that they make  
a continual hum.

The Illinois river at Naples is  
clear out on the west side, and at  
Valley City on the east side. The  
ferryman at Valley City meets the  
travelers at the mouth of Mauvais-  
terre creek and takes them down to  
the valley City landing. For this  
trip the aforesaid gentleman charges  
\$4.00.

In the meantime the approach to  
the mouth of the Mauvaissterre on  
this side is muddy in spots and  
some of the spots are spread out.  
At the Naples crossing there is a  
ferry that lands one where it is im-  
possible to get through the bottom  
with a car. The approach from this  
side to the north is much better  
than the approach to the Mauvais-  
terre landing, and Mr. Ashbaker,  
the ferryman, at Naples, hauls the  
autoist to Valley City and lands him  
for \$5.00 without getting in any  
mud whatever.

Autoist.

INDIANA CROPS LOOK GOOD.  
C. T. Mackness, president of the  
Jacksonville Farm Supply Co., re-  
turned Friday night from business  
trip to Indiana. He reports crop  
conditions in that state to be excel-  
lent. The corn between Fort Wayne  
and this city is very good. Tare-  
wing is the order of the day there  
and while all are busy getting their  
grain in it is estimated that hardly  
a third of the crop has yet been  
threshed. Machine men say that the  
straw is in bad shape but that the  
grain is turning out very satisfac-  
torily.

Sinclair Davis will spend today  
with his home folks in Virginia.

### UPPER BERTHS

An upper berth is a sort of sec-  
ond-story worker  
harbored by the  
sleeping car com-  
panies. It is a  
place where any  
man can sleep if  
he is a good ath-  
lete. It is locat-  
ed over a lower  
berth about 18  
inches from a mil-  
lion candle pow-  
er lamp and a  
little over two  
miles from a  
ladder. It is a  
room  
enough for a medium sized man  
and about half enough clothes to  
wear in a particular community.  
After the man has taken off these  
clothes and hung them up, he dis-  
poses of the rest by wrapping them  
around his neck.

A lower berth has shelves and a  
stunted hammock in which clothes  
may be deposited, but only the  
Great Northern and Northern Pac-  
ific railroads recognize that a man  
in the upper berth wears clothes and  
provide a rack for them. However  
in all sleepers the upper berth man  
is allowed to store his shoes with  
the porter. One of the heart-rending  
sights of American life is that of a  
frenzied man poking his head over

## MR. TINDALE'S DEATH BROUGHT SORROW TO MANY FRIENDS

The Musical Courier, one of the  
best known of musical publications  
recently had the following notice of  
the death of the late J. L. Tindale.

Richard Talbot Tindale, president  
of the Tindale Music company and  
only son of J. L. Tindale of G.  
Schirmer, Inc., was drowned on Ju-  
ly 15 while bathing off Valentine  
Point, Jamaica Bay, L. I., in com-  
pany with his father-in-law, Mr.  
Nesmith. On leaving their boat,  
which was anchored, the swimmers  
were at once carried away by the  
force of the tide and a strong under-  
tow. In their efforts to swim  
against the tide they became ex-  
hausted, and while Mr. Nesmith,  
the better swimmer of the two, was  
supporting his son-in-law, the latter  
was suddenly seized with a cramp,  
loosened his hold and sank before  
assistance could reach him.

Funeral services were held at his  
home in Bayside last Sunday.  
Among those present was Rudolph  
E. Schirmer, president of G. Schirmer,  
Inc. Mr. Tindale leaves a wife  
and three children.

A Memorial.  
In view of the recent untimely  
passing away of Richard Talbot Tin-  
dale, which has been such a shock  
to all who knew him, some tribute  
of affectionate appreciation of his  
character and qualities in Musical  
America may be considered his due,  
as one whose activities have bene-  
fited music and musicians in a di-  
rectly practical manner.

The energy, perseverance and in-  
finite capacity for taking pains,  
which brought him assured success  
in his chosen field of business en-  
deavor, were paired with those  
qualities of unswerving rectitude,  
kindness and consideration which  
endear him to all with whom he  
came in contact.

He commanded the esteem and  
regard of a wide circle of acquaint-  
ances, and those who stood close to  
him loved him. He lived in accord  
with that harmony of "the curiosity  
for truth, the instinct for beauty  
and the impulse for doing right,"  
which make life worth living, not  
only for one's own sake, but for that  
of others. And for this reason he  
will not be forgotten by those by  
whom he was held dear.

## "There's No Place Like Colorado After All"

Haven't you found that nearly everybody has a longing to go to Col-  
orado? Even though you have never seen the state, there is a call that  
reaches out and bids you come.

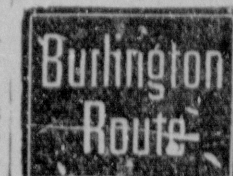

Certain it is, that those who have once filled their lungs with the  
invigorating ozone and bathed in the indescribable sunshine—invariably  
long to return.

Colorado is a wonderful place for children. The summer life out there  
is just about as ideal as can be imagined and a few weeks of outdoor life  
is wonderfully beneficial to everybody. Best of all—it isn't expensive.

The Burlington's Colorado-Utah handbook is worth reading even if  
you don't go. Send for your copy today.

Ames Gives Chicago Eight Hits But Keeps Them Well Scattered—Pierce and Zimmerman Engage in Fight on the Bench.

St. Louis, Aug. 14.—St. Louis hit the offerings of Pierce and Standridge right and left and with the aid of five errors by the visitors defeated Chicago 12 to 2. Ames gave Chicago 8 hits but kept them well scattered. Pierce and Zimmerman started a first fight on the bench in the sixth inning during the discussion over a fumble by Zimmerman which let in two runs for the locals. Vaughn, who stepped between them as a peacemaker, emerged with a bleeding lip but he had stopped the fight.

DOCTOR FIGHTS INDICTMENT AS GHOUL.  
Memphis, Tenn., Aug. 14.—A sensation is promised by the attorneys for Dr. Frank Ashley, a prominent physician of Shaw, Miss., when the doctor is tried next week on an indictment for the alleged theft of a cluster diamond ring from the hand of Mrs. Josephine Wilson when she lay dead in Baptist Memorial Hospital. The attorneys declare they will bring out facts bearing on the case which the men behind the action did not expect to be exposed. The husband of the dead woman is expected to appear in the doctor's behalf. Dr. Ashley was indicted by the Shelby County Grand Jury.

Pittsburgh stopped Brooklyn Saturday afternoon. The Brooklyn's have been going good lately. The Pittsburgh's won by hitting Wiltse hard at critical times.

J. H. Lindsey, Sr., of Litterberry was in the city yesterday in his Ford car.

## "MORNING GLANCES" (By Gosh)

Detroit beat Chicago Saturday by a score of 5 to 3. The Tigers made a vicious assault on Scott and had no trouble. The main factors in the defeat of the Sox was Cobb and Crawford. This slugging duo got five of Detroit's eleven hits. Cobb made three of the runs. Crawford with two doubles drove in three of the runs. Dubeu for Detroit never had any trouble except in the fourth when bunched hits gave the Sox all their runs.

Philadelphia had no trouble in defeating Boston yesterday. The Phillies hit Hughes and Neff hard. Demaree held the Braves to six hits and easily kept them away from the plate.

Brooklyn humiliated the Giants again yesterday when they won by a score of 5 to 1. Stroud and Schauer were hit hard while Pfeffer held the Giants to three hits for eight innings.

Cincinnati handed Pittsburgh a double defeat yesterday. The Pirates have been going fine and it looked like they were going to the top. It shows the uncertainty of baseball when they bumped into Cincinnati and were handed a double wallowing. It took eleven innings for Cincinnati to win the first game. In the second game Cincinnati hit all its own way, shutting Pittsburgh out.

St. Louis and Cleveland broke even in a double header Saturday. The Indians lost the first game in the eighth inning after having it won 3 to 1, the final score being 4 to 3. In the second game Cleveland bunched hits off Lowdermilk and won by a score of 4 to 2.

Miller Huggins gave Roger Bresnahan a going over at St. Louis yesterday. The Cardinals had their fighting clothes and hit Pierce and Standridge hard, winning by a score of 12 to 2.

It looks like it is good night for the Cubs so far as winning a pennant is concerned. Yesterday Zimmerman

## TIGERS HAVE EASY TIME DEFEATING SOX

COBB AND CRAWFORD LEAD THE ATTACK.

Russell Replaces Scott and Has Better Success, Holding the Visitors and is Given Good Support—Dubeu Has Only One Bad Inning.

Chicago, Aug. 14.—Detroit's sluggers were in fine form today and had an easy time defeating Chicago 5 to 3 in the first game of the series.

Cobb and Crawford led the attack on the locals. Cobb had a great day making three hits, one a triple, getting a base on balls and scoring 3 runs in five times to the plate. His team mate Crawford, made two doubles, the one the first driving in two runs and the other in the seventh, driving in the other.

James Scott was replaced by Russell. The latter had better success, holding the visitors and was given good support.

Jean Dubeu pitched for Detroit and had only one bad inning, the fourth when bunched hits following base on balls netted three runs.

and Pierce had a fist fight on the Chicago bench. They started to argue over a fumble made by Zimmerman that let in two runs. Pitcher Vaughn who acted as peacemaker, was the only one damaged and came out of the encounter with a bleeding lip. If the Cubs can unload Heinie it will be a good thing for the club as he seems to be a hard man to get along with and one crab can put the jinx on the best ball team that ever stepped on a field.

Boston scored another victory over Washington Saturday. In the contest Ruth outpitched Walter Johnson and the final score was 4 to 3.

The Yanks overcame a four run lead and beat the Athletics Saturday, the final score being 9 to 5. New York scored seven of her nine runs in the fifth inning.

Chicago and Baltimore split even in a double header yesterday, the Whites taking the first game and the Terrapins the second game. In the second game Chicago got ten hits off Johnson but could not bunch them.

## INJURED BY FALLING BRICKS.

J. M. DeFreitas, janitor of the Lafayette school, suffered a painful injury at the school Saturday afternoon. A carpenter was working on a scaffold and Mr. DeFreitas was doing some work under the scaffold. Three bricks in some manner slipped from the scaffold and struck Mr. DeFreitas on the head. He was rendered unconscious and his head was badly cut. Dr. A. M. King was called and the wound required several stitches. It is fortunate his injuries were not more serious.

## DR. CARSON

Chicago Specialist

In the treatment of Chronic Disease, will be at the Dunlap Hotel, Jacksonville, Illinois, Wednesday, August 18, 1915. one day only. (Returns every 28 days). Hours, 8 a. m. to 4 p. m.

Fourteenth Successful Year in Jacksonville. Consultation and Examination Free

I treat successfully the cases I undertake and accept no fee from those who are incurable. That is why I continue my visits year after year, while other specialists make only a few visits and cease to return.

IS THIS THE WAY YOU FEEL? Tired in the morning and easily excited? Are you dizzy or nervous? Pain in the head? Tongue coated? Have you Catarrh—nose stopped up? Gas on the stomach? Hands and feet cold? Pain of hands and feet? Have you a dim, dragging pain or ache of the body, back or limbs? Have you Rheumatism? Have you Piles—itching or bleeding? Have you kidney or bladder trouble, lame or weak back, pains in back or joints? Have you any blood disease—scrofula, skin eruptions, pimples, bone pains, pale complexion and losing weight?

Experience makes perfect. Having treated hundreds of old chronic stomach troubles for the last fifteen years, I can relieve a great majority of these cases and restore them to health and strength again, especially in those cases who suffer from the effects of pain in the stomach and bowels, bloating, gas, spitting up of food, sour stomach, headache, dizziness, loss of appetite, drowsiness, and heavy, bad feeling in the head.

Private Diseases a Specialty! NERVOUS DEBILITY—Are you nervous, despondent, weak, tired mornings, no ambition, poor memory, easily fatigued, excitable and irritable, eyes sunken, red and blurred, pimples on the face, dreams, restless, haggard looking, weak back, deposit in urine, drains at stool, distrustful, want of confidence, lack of energy and strength

Invite you to call and investigate the Carson System of the treatment of Chronic Diseases, which I have perfected after fifteen years of experience and study, and you will be convinced that my modern, up to date methods of curing disease are what you need.

Never before has there been a treatment giving such universal satisfaction. Every sufferer is cordially invited to call and secure full details concerning this new treatment free of charge.

REMEMBER DATE OF VISIT. Come early as parlors are always crowded. A friendly call may save you future suffering; it has made life anew to thousands who had been pronounced beyond hope.

C. W. CARSON, M. D., 766 Oakwood Blvd., Chicago, Ill.

### WOMEN HAVE PLANS FOR GREAT PROGRAM

Tuesday, August 24th, Designated as Woman's Day at Jacksonville Chautauqua—Auxiliary Tent to Have Exhibits—Library Books for Campers.

Tuesday, August 24th, will be woman's day at the 1915 Jacksonville chautauqua. A program of very great interest to the women of Jacksonville and Morgan county has been prepared. Out of town speakers in the persons of Mrs. W. F. Young of Chicago, vice president of the Illinois Congress of Mothers and Parent-Teachers association, and Mr. W. F. Booth, assistant superintendent of public instruction of Illinois will deliver addresses. There will also be a business meeting of the Morgan county federation.

Special attention is called to the woman's auxiliary tent this year, where a number of attractive exhibits will be on display. These will include the State Board of Health exhibit; fancy work and handicraft of patients at the Jacksonville hospital for the insane, also an exhibition showing the method of treatment of patients now and formerly; an educational exhibit in charge of Mrs. Parker Doan; manual training and domestic science work as conducted in our public schools under the direction of Paul Wells; an exhibition from the School for the Blind.

Arrangements have been perfected whereby campers can secure library books at this tent. A librarian will be at the tent a part of each day. Campers will no doubt take advantage of this privilege.

The women are planning for a great day at the chautauqua Tuesday and the woman's auxiliary tent will be a place of activity and attractiveness throughout the ten days.

### PYTHIANS OF THREE STATES ENCAMP.

French Lick Springs, Ind., Aug. 14.—The great tri-state encampment of the Pythians will begin here tomorrow, the first in the history of the order where three states have combined. Illinois, Indiana and Kentucky Pythians are arriving in large numbers for the encampment. The encampment will occupy a full week, and there will be drills for prizes, parades, a military ball and social events. Notable visitors are expected Monday, including the governors of the three states.

### Y. M. C. A. SERVICE AT GRACE M. E. CHURCH

The Y. M. C. A. will join in a booster service Sunday evening at 7:45 at Grace M. E. church to which the public is cordially invited. Mayor H. J. Rodgers, the newly elected president of the "Y" will preside and addresses will be given by H. A. Brewer and A. L. Snyder. They will set forth the plans and activities of the association for the coming year. The men and boys of the "Y" will occupy the choir loft and will lead the singing and give some special association songs.

### HAVE SETTLED DIFFERENCES.

Deputy Sheriff Wanamaker returned from Peoria Saturday morning with Frank J. Berkley. Berkley was apprehended on request of S. M. Campbell, proprietor of the Pacific hotel. Upon his arrival in the city Mr. Berkley went directly to the Pacific and soon had matters adjusted satisfactorily. Mr. Berkley will still be a guest of the hotel and expects to begin his work with Colliers Monday. Those who have become acquainted with Mr. Berkley will be glad to learn that his difficulties have all been settled.

### BOULEVARD LIGHTS AT BLIND.

Trenches have been dug at the Illinois school for Blind for the laying of the cable wires which will carry the electric current necessary for the lighting of the boulevard light posts which are to be erected at various places along the State street front, and at other locations where they will be needed in the yard. Brick pillars are to be placed on each side of the main entrance gate with lights in place of the single light over the gateway and the change will add much to the appearance of the street in that locality.

### WILL ATTEND TRAINING SCHOOL IN CHICAGO.

Mrs. Naomi Martis left on the Alton Hummer this morning for Chicago. Mrs. Martis goes to Chicago to attend the Spirella Corset training school. The sessions will be held at the Hotel Sherman.

## To Motorists: This Master-Plant

offers every known efficient method and facility for the manufacturing of perfect lubricants. Its recommendation is **Polarine** for all standard makes and types of cars.

In using the product of this plant in your motor you get the benefit of the lubricating experience of *Standard oil experts*. And no body of men represents more knowledge in this line.

Their prestige and the prestige of this company are at stake on the recommendations they make.

## Polarine

"Standard Oil" science, experience and facilities have eliminated the faults of poor motor oils! Thus thousands of motors which were once troublesome and expensive have been made smooth in operation and economical in upkeep.

Polarine maintains the correct lubricating body at any motor speed or temperature.

In seven years the demand for it in the Middle West alone has increased from 1,100 gallons to nearly 7,000,000!

Why experiment longer, when you can get Polarine? Polarine is dependable. It is on sale everywhere at less price than asked for oils that fall short of Polarine in efficiency.

## WORLD'S MARKET NEWS

### BIG RECEIPTS OF WHEAT GIVE BEARS A DECIDED ADVANTAGE

Market Closes Unsettled at a Loss—Corn and Oats Also Suffer Declines.

Chicago, Aug. 14.—Big receipts and the disturbed export situation gave a decided advantage today to the bears in wheat. The market closed unsettled 3/4c to 2c under last night, with September at \$1.05 1/2 and December \$1.06 1/2.

Corn suffered a loss of 1/4c to 3/8c on net and oats of 1/4c to 3/8c.

In provisions the outcome was unchanged to 10c down.

Declines in the wheat market began after a show of firmness at the start, due to steadiness in quotations at Liverpool, where were denials that any appreciable amount of British purchases in the United States had been cancelled. No pronounced weakness developed until the fact became apparent that wheat on consignment was coming forward with unexpected freedom to Chicago and other leading terminals.

On the downturn a fair demand for wheat sprang up, especially from the seaboard. Sales of 110,000 bushels to exporters were announced.

Coarse grains followed. The downward action of wheat. Trade in corn was confined almost wholly to transactions between pit speculators. Oats felt the bearish influence to improve weather for the harvest.

### SEVERE REVERSALS IN SOME WAR SPECIALS MARK BRIEF SESSION

Railroads Are Irregular Until Toward the End of the Session.

New York, Aug. 14.—Severe reversals in some of the war specialties marked today's brief session of the stock market. The setback was attributed to a variety of causes but the chief reason was believed to be the fast growing belief that the time had come for a halt in the further rise of these volatile issues.

Crucible Steel, Willys-Overland, Bethlehem Steel and Allis-Chalmers were the chief sufferers but they regained much of their losses later.

Railroads were irregular until toward the end of the session. United States Steel and a few other favorites were under intermittent pressure but the market's tone at the close was strong. Total sales aggregated 365,000 shares.

Lower rates for exchange on London and Paris were quoted and the foreign exchange market was utterly demoralized. Demand sterling fell to 4.69 and according to trustworthy accounts this quotation was shaded half a cent after the close of the stock market. Paris checks yielded to 5.90 with every prospect of lower quotations during the coming week.

The bank statement fulfilled popular estimates. Actual demand deposits increased over \$50,000,000.

## Get Rid of Scrofula How? Take S.S.S.

**Fifty Years' Use Proves S. S. S.  
Will Relieve Stubborn Cases**

You have noticed the little festering pimples on the face and body—swelling of the glands—soreness in the legs and arm muscles. These are the symptoms of Scrofula. You may have some of these symptoms, possibly the faint of Scrofula infection. But in either case, it is a dangerous condition. Your blood is infected, impure, and you can never

hope to gain perfect health until the impurities are washed from the system. If you feel badly all the time, you must crave health. If you want to feel renewed spirits, the glow of perfect health, bright eyes, clear skin, the knowledge that you are well, you can do so. Cleanse your blood by taking S. S. S. For fifty years it has been the standard blood purifier. It relieves the trouble by renewing the blood, renewing its strength, and stimulating the flow so that the blood regains its lost vitality, and throws off the poison. Even long-standing cases respond. But you must use S. S. S. Take it for all blood infections. Get it at your druggist's today.

If you need special advice, write the S. S. S. Co., Atlanta, Ga.

## Don't Suffer With Chronic Disease Let Me Cure You

**I Will Give Consultation Free at the  
Hotel Dunlap from 9 a. m., Tues-  
day, August 17, until 4 p. m.,  
Wednesday, August 18.**

I am having the greatest success with my New Neuropathic System of treating diseases, in the cure of chronic rheumatism, uric acid conditions, kidney and bladder troubles, palpitation, shortness of breath, stomach and liver troubles, constipation, blood and nervous diseases, catarrh, deafness, eye troubles and every curable chronic disease or weakness.

Read what Mrs. Vaughn says of this treatment:

July 15, 1915.

Dear Doctor:  
I had been suffering with liver and nervous trouble for years and for over a year had had constant sick headaches, palpitation of the heart, shortness of breath, severe pain in my back and was sore all over and tired all the time, and sick at my stomach and my strength was failing rapidly. I had tried many doctors without any benefit and was absolutely discouraged and despondent of ever being cured. When I came to you I did so entirely to please my family as I, myself, no longer had any hope that anyone could cure me, but you seemed to understand my case so thoroughly that I thought I would try you just once more; and I took your treatment and to say that I am glad is putting it mildly, for I am well again, feel better than I have for years, and my only regret is that I did not come to you long before I did, for I know you could have saved me many months of suffering. I am very thankful for the cure you gave me and will surely and strongly advise any one suffering from chronic troubles to go to you for your treatment was a God send to me, and wishing you the greatest success I am,  
Gratefully yours,  
Mrs. C. Vaughn, Mansfield, Ill.

This is another of the many cases that show the great cures I am making with this treatment.

I will give consultation free this trip to all sufferers to demonstrate my new treatment. I want to treat as many people as possible in Jacksonville this trip.

I will be at the Hotel Dunlap from 9 a. m. Tuesday, Aug. 17, to 4 p. m., Wednesday, Aug. 18.

Call at my rooms between 9 and 12; 1 and 5 and 7 and 8.

## RATE CASE SETTLED BY INTER-STATE COMMERCE DECISION

Union Pacific Stood on Legal Right to Withdraw From Arrangement With D. and R. G.

The Interstate Commerce Commission yesterday settled one of the most important passenger rate controversies which it has ever been called upon to review, when it handed down its decision in the Ogden Gateway case. In 1914 the Union Pacific system announced its intention to discontinue the interchange with the D. & R. G. at Ogden of passenger business to or from points on the Oregon Short Line, a part of the Union Pacific system. The D. & R. G. contended that as these rates had been in effect about eighteen years, they should not be cancelled.

The Union Pacific stood upon what it regarded as its legal right to retire from an arrangement which short-hauled its own lines, and contended that it was entitled to the long haul on passenger traffic to and from territory served by the Oregon Short Line, the principal reason assigned being the large expenditures made by the Union Pacific in the construction of branch lines, particularly to Yellowstone Park and in Oregon Short Line territory, the testimony indicating that in recent years \$109,000,000 was expended in the construction of branches for the purpose of enabling the Union Pacific to serve Idaho and adjacent territory, while the D. & R. G. on the other hand, had not invested a dollar in Oregon Short Line territory. Commissioner Harlan in announcing the majority opinion of the commission, says: "In addition to the shorter mileage, the service of the Union Pacific in point of time is much superior."

The fastest train over its rails from Omaha reaches Ogden in eighteen hours and fifty-five minutes less time than the best train between the same points over any route in connection with the D. & R. G.

"The situation before us is a very practical one. The Denver & Rio Grande route as herein before pointed out, is longer by nearly 400 miles and is nineteen hours longer in point of time. Under such circumstances if no through route were now open, an order based on the record before us, requiring the Union Pacific system to short-haul itself by establishing the present parity of fares over the Denver & Rio Grande would be illogical and arbitrary in the highest degree. It would be no less so should we undertake to exercise our power under the same provision of law by compelling the Union Pacific to continue a rate adjustment which we could not lawfully require it to establish as an original question."

### ICED TEA AND GINGER-ADE

Ginger-ade is sometimes called Canton Punch and it is relished by persons who know of its wholesomeness and its zest. You must buy the crystallized ginger to make it; this comes in metal boxes covered with Chinese characters and is very sweet and rich. Cut this ginger in wee bits and cover it with cold water. When it has stood an hour, bring it to the boiling point and boil until it is reduced one-half. Do not strain this, but let it cool and then divide it among the glasses. Add shaved ice and cold water until the glasses are full.

All fruit juices may be used with this, but the ginger alone is delightful.

Iced Tea, all the family declare, "reaches the right spot" and it is our most cooling beverage; at the same time it is harmlessly exhilarating.

There is much more to it than merely adding ice to well-made tea and there are numerous additions to make just plain tea seem a very delightful drink indeed.

First, then, choose the tea with a definite idea of the flavor you need and an eye to the color it will be in the glass after it is made and brewed and cooled. Perhaps no one has told you that too dark a tea will look cloudy when it is iced and light green tea becomes insipid looking after it has been iced. It is quite worth while to look up a tea well-suited for iced; a mixture of one-third black and two-thirds green tea is good.

Everyone knows the lovely appearance of a thin graceful glass filled with amber-colored, ice-tinkling tea. But perhaps you have objections to putting ice into liquids—many times these objections are sustained in the fact that ice is impure or that too low temperatures are injurious. In such cases make the tea and pack it several hours in ice as though it was a water ice or a frappe.

Indeed, the tea should be made as usual, only a third stronger, and after it is steeped five minutes or until it is sufficiently strong, it must be strained and cooled. Tea should never be left to cool with the tea leaves in it.

A slice of lemon and a sprig of mint are the usual additions to iced tea. A crystallized cherry may also be added. A bit of ginger gives a piquant flavor and other ways are liked by other palates.

Iced Coffee is another drink that has become popular since we have been seized with a passion for summery beverages. The coffee must be made somewhat stronger than for table use, as it is to be diluted. Strain and chill it and serve in tumblers with just a spoonful of whipped cream or whipped egg white and cream on the top.

Of course straws are sent around with the cool drinks, for this gives lingering sweetness long drawn out. And there are other things beside straws that add to the grace of cool comforting hospitality.

To-morrow—Corn Dishes.

## AN ABSENT MINDED EDUCATOR

Committee Fears It May Be Necessary to Close List—Attractive Window Display.

Friday night one of Jacksonville's well known educators came down town on some business. This gentleman is well known for his methodical way of doing things so he brought his horse and rig along and carefully tied the animal close to West State street. He then had some business with T. H. Buckthorpe. The conference lasted until nearly 11 o'clock. The educator saw a car headed for the west end of town and made a rush to grab it. It is a long walk to this gentleman's house. Some kind hearted passenger saw his efforts and got the car stopped in front of Dr. King's office. He got on the car, paid his jitney and settled himself down in comfort. When the car reached the high school he rushed frantically out on the front platform. You know the use of the one man cars changes a man's action a little. So he rushed to the front platform and told the motorman-conductor—no the conductor-motorman, to stop the car. Everybody thought he was bereft of his senses. He explained that he had forgotten that he had brought his horse and buggy down town so he had to go back after them. It is said that when school opens this fall he is going to tie a string on his finger so that he won't forget to go to the school in the morning.

## SUGGESTIONS ARE GIVEN RURAL SCHOOL TEACHERS

Agriculture School Lessons and Home Life Can Be Closely Related With Good Results.

Washington, D. C., Aug. 14.—A number of suggestions to help the rural public school teacher in leading his or her pupils to see the direct relation between home life and their school studies are contained in a new publication of the Department of Agriculture. This bulletin, No. 281, entitled "Correlating Agriculture With the Public School Subjects in the Northern States," contains a plan of work extending from September through the fall, winter and spring to the end of June. Under this plan each pupil is encouraged to undertake some home project; that is to say, some work at home which will extend through a whole season, will be connected at school, and a record of the results of which will be faithfully kept and turned in to the teacher at the conclusion of the project. At school the pupil's exercise in arithmetic, spelling, English, geography, etc., are so directed that the value of these subjects in practical life is more clear. For example, in the language lessons, the pupil may be asked to write out the method which he used in testing milk with a Babcock tester, special emphasis being placed upon the need for making the meaning absolutely clear. In the same way the records obtained from cow-testing may be used as exercise in arithmetic and the pupil asked to compute the total yield of butter fat, its money value, and the estimated profit from any given dairy herd.

In the supplement of the bulletin is contained a number of sample score cards designed to assist the teacher in rating agricultural exhibits which the pupils should be encouraged to make. The new bulletin is designed especially for rural school teachers in the northern states.

# Detroit Electric

## Doubled output for 1916 reduces prices as low as \$1975

As this town has electricity it is a practical Detroit Electric car town. Long stretches of paved streets are not a necessity for this car with its great power and remarkably easy riding qualities. Detroit Electric owners have demonstrated that it is just as good for interurban motoring as it is for driving about town.

## August 15 we reduce the price \$600 to \$725 per car.

Remember—these are the same high quality cars as our 1915 models plus a score or more of 1916 refinements. Even while lowering the price, we bettered the car. In the 1916 Detroit Electric, you will find—we believe—the top place-car of its type. We urge you to match it—if you can—in elegance, quality, utility, or value in the entire closed car field—gasoline or electric. This price reduction is possible only because of doubled output.

## You get these savings

Our doubled production leads to many economies in all overhead expenses, in purchasing, in advertising, in sales cost, in engineering. All the savings effected by our larger operations we hand on to you—and take our benefit from doubled volume.

## Here are the 1916 prices

Model 61 4-Passenger Brougham	(Formerly \$2,600) — Now \$1,975
Model 60 5-Pass. Duplex Drive Brougham	(Formerly \$3,000) — Now \$2,275
Model 59 5-Pass. Rear Drive Brougham	(Formerly \$2,950) — Now \$2,225
Model 58 5-Pass. Front Drive Brougham	(Formerly \$2,950) — Now \$2,250
Model 57 4-Pass. Rear Drive Brougham	(Formerly \$2,850) — Now \$2,175
Model 56 3-Pass. Cabriolet	(Formerly \$2,650) — Now \$2,075

You may have either the worm bevel gear or the worm gear; wire or wood wheels; cushion or pneumatic tires; as optional equipment

Investigate the Detroit Electric at once—and learn why the 1916 Detroit Electric is the preferable car for you. Current for battery charging is furnished by your central power station at low rates (\$5 to \$7 per month) and is growing lower constantly.

## NEW FILM PLAY, "THE GODDESS," SETS RECORD

Thousands upon thousands of persons in Chicago today were talking of and discussing the beauties, the effectiveness and the thrills of "The Goddess" as they saw them last night in the first showing of the first installment of the wonderful film.

Moving picture history was made in Chicago last night. "The Goddess," that wonderful brain child of Gouverneur Morris and Charles W. Goddard—the story that is now appearing every day on the magazine pages of the Chicago American—was shown to a larger audience than any other moving picture anywhere at any time ever had.

This picture starts at Scott's Theatre next Tuesday. Don't fail to see it. Read the story in the Courier Monday night.

### A COMMUNICATION.

Editor Journal:

In a recent editorial on the petition asking for a vote of the people on returning to the Aldermanic form of Government, the Jacksonville Courier, Thursday, August 5th, insinuated that the signers of the petition were gamblers, bootleggers and disreputable citizens, and also insinuated that they came from the first and second wards of Jacksonville. Now, I signed the petition, but up to the time that I read that editorial in the Courier, I never knew that I was regarded as a gambler, or a bootlegger or otherwise a disreputable citizen, neither did I know that there were over 1740 men and women in the city of Jacksonville that followed the occupation of bootlegging, gambling and had other disreputable qualifications, and I was surprised to learn that so vast a number of such people lived in the first and second wards. During the last eight years of the aldermanic form of Government in Jacksonville, the Courier did not have much influence and it is easy to see why the Courier is an arch enemy of the aldermanic form of government. The last attempt of the Courier to make good, under the aldermanic form of government was about 6 years ago, when that paper endorsed F. E. Farrell. It was openly asserted by Farrell's friends that the endorsement defeated him although everybody knows that Mr. Farrell is one of Jacksonville's highest esteemed citizens. Politically the Courier tries to pose as the democratic organ for Morgan County, but I get it from good authority that at a recent meeting of prominent democrats, the paper was charged with lack of party loyalty.

Many of the 1700 petition signers are subscribers and advertisers of the Courier.

If the paper knows of such a vast number of bootleggers, gamblers and disreputable citizens, they might tip it off to the mayor and council and they might get busy and try to earn their salaries. Now the Courier reminds me of a school boy's essay on "A weed known as the Cockle Burr" which he wrote as follows: "The Cockle burr is a bad weed. It tries to grow in good people's yards. It sticks its burrs fast to dogs. Dogs scratch them off fighting fleas."

Politically, I have been a lifelong democrat, I have tried to be true to my convictions and my party principles, but I have failed to find, as yet, an editorial in the Courier that I could stand for and retain those principles. The editorial of the Courier of August 5th, is smeared with false insinuations about the petition signers.

### WITH THE SICK.

John J. Mallen of Prospect street who has been quite ill for the past ten days is thought to have improved a little, but continues very sick. Melvin Stinebaker who was in ferry boat over the Illinois river at Naples was in the city looking out for business Friday.

Mr. and Mrs. W. T. Spires will spend today at the home of his sister, Mrs. Abe Seymour in the Providence neighborhood. Their daughter, Miss Carrie has been a guest of her aunt for several days and it is expected that Mrs. Bell Browning of Lewistown, a cousin will also be present.

S. A. Thompson of the Thompson Produce Co. is able to be out after being confined to the house by slight illness.

Mrs. C. H. Cogswell of 1330 West Lafayette avenue is a patient at Passavant hospital.

Mrs. John Haxton of Beardstown who has been ill for sometime is improving very slowly. Her daughter, Mrs. Ray Bourn has gone to be with her.

Harold Wright of Clay avenue was taken Friday with an acute attack of appendicitis. He was taken to the sanitarium of Dr. Day where he underwent a surgical operation.

Charles R. Knollberg while on a business trip to Rees station last Tuesday had the misfortune while passing down the steps at a store to slip and fall in such a manner that he sprained his back and in consequence is confined to his bed.

Joel Strawn, of Orleans, a few days since ran a thistle thorn into one of his fingers and it became so infected he came to the city to have the injury lanced.

### HAND-BALL TOURNAMENT CREATES INTEREST AT "Y"

Never before in the association's history has Hand Ball created such an interest. The first Hand Ball tournament that the association has known in years is now in progress. Everyday lively things are happening in the gymnasium and elsewhere but especially in the gymnasium.

Those signed up for the tournament were UpDeGraft vs Snyder. Snyder won over UpDeGraft easily and is a contender for the semi-finals. Woods vs Johnson have not yet played. Hunt defeated Walker and Lemons and Widmayer have not yet played. Vieira defeated Carroll. The matches to be played in the semi-finals will be Snyder vs. Vieira, Hunt vs. Boxell. The other contenders have not competed and the semi-finals are not complete. It is difficult to figure who is likely to win out. Secretary Snyder is showing the best form and will evidently win over Vieira easily. The secretary's style is becoming better each game and he evidences many years of hardy work in the Kansas Wilds. The secretary is contemplating sending out a state challenge if he defeats Vieira.

## WHEAT FOOD COMPANY THINK WELL OF LOCATION

Believe Jacksonville Would Be a Good Distributing Point For Their Product.

C. H. Woodward, of Ocean Springs, Miss., who appeared before the Jacksonville chamber of commerce directors recently by invitation to talk about a whole grain wheat food in which he is interested, is still in the city. Mr. Woodward yesterday received a letter from Dr. Bahendroer, the president of the company, in which the writer gave some facts about the growth of the business and expressed his belief in its tremendous possibilities. Mr. Woodward was requested at the recent conference with Jacksonville men to write to his associates with reference to their feeling about locating in Jacksonville.

The letter received yesterday made no specific comment on this matter but Mr. Woodward has expressed the belief that arrangements for the removal of the business here could be effected on a very reasonable basis. He states frankly that the character of the business is such that Ocean Springs is not the logical location for it. The shipping facilities there are not adequate and there is the further and more important fact that the wheat used in the manufacture of the product must be shipped a long distance, whereas in this locality the grain would be near at hand. The whole matter is to be carefully investigated for the Jacksonville men who have looked into it in a superficial way believe that it presents some great possibilities. Mr. Woodward and his associates believe that the business could be profitably developed along general canning lines and that vegetables for that purpose could be grown here at low cost. It has been suggested that a company be organized and shares placed at \$50 each and an effort made to interest a widely scattered number of farmers and city people rather than to have a few people take all of the stock.

### SOLD TICKNOR LAND.

Capt. John E. Wright yesterday sold on the court house steps the forty acre fruit farm belonging to the estate of the late L. F. Ticknor. The land is located a few miles west of Jacksonville and was purchased by M. R. Fitch, at \$101 per acre. It is understood that Mr. Fitch made the purchase for LeRoy Ticknor, who is now making his home on the farm.

## IN HONOR OF BIRTHDAY.

James Donald Swales, son of Dr. and Mrs. W. O. Swales of 422 South Clay avenue, celebrated his fifth birthday Saturday by giving a party to a number of his little friends. The event was held on the lawn and merry games helped to pass away their hours. At the proper time refreshments delightful to children's hearts were served and Master James received a number of pretty presents.

## HOWARD ZAHN SELLS BUICK

CAR TO CAIN FAMILY

Howard Zahn delivered his 6th Buick car Saturday to the Cain family east of the city.

## WILD CAT MONEY.

Robert A. Kuechler has left at the Journal office several bills of Wild Cat money, issued from different banks of the country. As is well known this money was put on the market before the war. At that time many banks were breaking up and there was no national security as there is now. A dollar of wild cat money might be worth a dollar one day and the next day fifty or seventy five cents. The notes are similar to those issued now by the government.

## CHARLES MCGATH EMPLOYED

ON BLIMMING FAIRM

Man Is Not Unduly Excited About Prospect of Inheriting Millions—Went to Springfield Saturday to Confer With Sister.

Nothing has been learned by the Illinois heirs as to alleged Mercer millions which are said to be awaiting them in New York City. Saturday's Journal stated that Charles McGath of this city was one of the heirs. At first this was thought to be a mistake but McGath while not a resident of the city was in the immediate vicinity.

It seems that McGath is a laborer and has worked in various parts of the country for the last ten years. He is at present employed by Henry Blimming who lives near Gravel Springs about four and one-half miles northwest of the city.

McGath came to town Saturday. He is about fifty years of age and has raised a family of seven children. He went to Springfield Saturday morning to confer with his sister, Mrs. Guy Beldock.

According to the Springfield papers none of the heirs seem unduly excited at the prospect of inheriting millions. It seems that their mother often told them that some day they would inherit a large fortune from a New York estate. What the prospective heirs would like to learn is the truth in the matter.

## INVESTIGATING FIRE.

The State Fire Marshal is investigating the attempt to burn the residence of Walter Mallicoat in Virginia Thursday morning. Mrs. Mallicoat was awakened by the crying of one of her children, and thus discovered the fire. She testifies that she found the screen cut from one of the windows and the carpets in the house soaked with kerosene. Old clothes had been taken from the house too, she said, then piled on the roof of the summer kitchen where they were soaked with coal oil and fired.

## GIRLS WANTED AT ONCE.

## HAVE STARTED TO OIL CASS COUNTY ROADS

Board of Supervisors Will Put Down \$50,000 Gallons of Oil in the Next Few Weeks.

Cass county started in earnest to oil the road of that division of Illinois Saturday. When oil was put on the county line road for a distance of a mile and one half out of Ashland.

As formerly mentioned the board of supervisors of the county have recently purchased an oil sprinkler of the latest pattern. Monday the road toward Curney, a distance of two miles west, will be oiled and Tuesday to the Morgan county line and the Menard county line, then toward Virginia. They expect to use in all about 50,000 gallons and the first time about 1200 gallons will be used per mile. It is thought that the road will be re-oiled in about twenty days. The width oiled is sixteen feet.

Before the oil is prepared the roadway is drained, harrowed, rolled and then dried. The oil is heated to 245 degrees Fahrenheit and the automatic valves shoot the oil toward the ground with much force. Travel is suspended on the stretch for at least 48 hours.

The work is being done under the direction of John Goodell of Beardstown, county superintendent of highways of Cass county.

There was a large number present Saturday to see the work start and it is expected to have twelve counties represented this week to watch the progress of the oiling. The business men of Ashland have especially invited everyone interested to inspect the work.

## ANNOUNCEMENT.

Mrs. Marcus L. Robinson, who for the last seven years has catered to an exclusive and high class parlor trade in millinery, and who the past season has been with F. J. Waddell & Co., will open her shop down town the first of September. Further announcement will be made later. Mrs. Robinson is now in Chicago buying her stock.

## AUTO TOURISTS MANY.

It is now a common occurrence for automobile drivers to pass through Jacksonville following the Burlington trail or someone of the other trails which are routed via this city. Yesterday H. Bangs, of Ft. Wayne, Ind., was here in a Thomas car. He represents an ignition company with headquarters in his home city, and is now on his way east after a visit to the Pacific coast. He left California five weeks ago and has been traveling at the rate of 100 miles a day. In his work a number of stops are necessary at the garages in all of the larger cities.

Another tourist yesterday was R. A. Tharp, of Livingston county, Mo. He was accompanied by his family and was traveling in his Studebaker Six. He had been visiting relatives in Indiana and was on his way home.

## WILL EXHIBIT QUADRUPLTS.

Several weeks ago mention was made of the birth of four girls to a couple at Hollis, Oklahoma. An Oklahoma paper says the babies are all alive and thriving and their father has accepted an offer to place them on exhibition over the United States from New York to San Francisco. The paper says that this is the only case on record of the birth of quadruplets all of one sex. 5,000 people have already visited the babies.
